DETAILED ACTION

1. This office action is in response to the Request for Continued Examination (RCE) filed on September 16, 2008, in which claims 1, 4-9, 12-17, 20-22, 24-28 and 31-36 are presented for further examination.

Continued Examination Under 37 CFR 1.114

2. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after allowance or after an Office action under *Ex Parte Quayle*, 25 USPQ 74, 453 O.G. 213 (Comm'r Pat. 1935). Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, prosecution in this application has been reopened pursuant to 37 CFR 1.114. Applicant's submission filed on September 16, 2008 has been entered.

Response to Amendment

3. The amendment filed on September 16, 2008 has been considered and the information referred therein has been also considered as to the merits.

Claim Rejections - 35 USC § 101

4. 35 U.S.C. 101 reads as follows:

Whoever invents or discovers any new and useful process, machine, manufacture, or composition of matter, or any new and useful improvement thereof, may obtain a patent therefor, subject to the conditions and requirements of this title.

5. Claims 1, 4, 6-9, 12-17, 20-22, 25-28 and 31-36 are rejected under 35 U.S.C. 101 because the claimed invention is directed to non-statutory subject matter. Claims 9 and 28 recite “a

Art Unit: 2162

directory services arrangement”. Such directory services are non functional descriptive material and an abstract idea. It is definitely not stored on an appropriate computer readable medium.

Therefore, claims 9 and 28 fail to fall within a statutory category.

Claim 28 recites one or more memory modules. Such modules are programs. Therefore, claim 28 is a program per se. it appears such modules are not stored on an appropriate computer readable medium

Claims 12-16 and 31-35 are rejected under the same rationale as applied to their correspondent base claims.

Claims 1, 17 and 36 recite “if a determination is made that the filter item comprises a NOT connective and a type only filter item, applying a logical methodology to evaluate the filter item, the logical methodology comprising expanding an expression of the filter item so that the filter item does not comprise the NOT connective”. It appears that there is no end result under the condition, when the determination is made that the filter item comprises a NOT connective and a type filter item. Applicant should duly note that the specification requests that both conditions be satisfied in order to process the database service query. Therefore, the claims fail to fall within a statutory category.

Claims 4, 6-8, 17, 20-22, 25-27 are rejected under the same rationale as applied to their correspondent base claims
